

Lulu

Lulu is a 4 year old torti and white domestic shorthair that lives with Geriann Weiland. Lulu can be found cat-napping on the bench at the end of the bed or in front of the patio doors in the sun. At night she can be found sleeping on Geriann's daughter, Olivia's bed. She enjoys playing with catnip mice and string. Lulu is not picky when it comes to treats and will eat any type of treat.

Lulu likes getting attention by rolling onto her back on the kitchen counter while the family is cooking or doing dishes. She also loves to chase the other cat that lives with her, Simba. Lulu and Simba get along well but she is still getting used to Millie, the new puppy in the house.

Lulu started out as a farm cat but Olivia brought her home after finding her full of manure. It took several baths to get the manure smell out. She likes to work her way in-between the patio door and screen even though she doesn't really fit. Lulu loves to watch the "big black cat" that is really the neighbors black lab.

Lulu is very playful and spunky but is also very sweet. The doctors and staff look forward to seeing Lulu and the rest of her family for years to come.
