

Molly

Molly is a two year old grey Labrador Poodle mix that lives with Curt and Holly Schulz. Molly enjoys sleeping on her chair and the couch. She will also sleep on Curt and Holly's bed until they come and lay down in it. She loves to play with a ball, her frisbee and stuffed animals without destroying them. Molly is not picky when it comes to treats and will eat anything. She is very good at catching treats and is very food motivated. She will get the occasional treat of a baby ice cream cone from McDonalds.

Molly looks forward to playing with and catching her frisbee as well as going for walks and car rides. She also loves to play in the lake. While Molly doesn't live with any other animals she does have other dogs that she sees regularly in her extended family and they get along great. When she was younger, Molly attended puppy classes and received the perfect attendance award and won at bingo. Last fall Molly helped herself to Curt and Holly's son's leftover wedding cake in October and two pumpkin pies the day before Thanksgiving.

Molly recently spent time with 12 refugee children and had a great time. The doctors and staff look forward to seeing Molly and the rest of her family for years to come.
