

Coconut

Coconut is an 11.5 year old buff Shih Tzu that lives with Brian and Brenda Voss. Her nick names are Nutball and Otto Bean. She enjoys sleeping by windows in the sun, on anything soft (such as pillows or blankets) and on their bed. Brian and Brenda say that Coconut sleeps in the strangest positions and that she seems to take up a lot of room on the bed for a small dog. Coconut's absolute favorite place to sleep is under the artificial Christmas tree. She is under there while it is still being put together and plays with the tree skirt. Coconut is definitely a cuddler especially when either Brian or Brenda is not feeling well. She adores being around people and other dogs and as well as being the center of attention.

She can't get enough of human foods but really likes watermelon and peanut butter. She will come running from across the house when she hears the watermelon come out of the refrigerator. She also likes Lean Treats® from the vets' office. Brian and Brenda say that she is very food motivated and loves to eat but can never gain weight. Coconut has a lot of toys but appreciates squeaky toys and a stuffed elephant toy the most. She has a lot of safari themed toys that she plays with.

Coconut enjoys going to her grandparents house and seeing their dog, Annikki. Coconut and Annikki are the same age and grew up together. She takes pleasure in going to new places, going for car rides and going on walks. Coconut adores agility and has been involved with it her whole life. Coconut will jump over things that she can walk over and when she jumps she jumps very high to get over the obstacle. She likes to hide behind things and under things but she never hides her whole body so she can still be seen.
