

The Pet of the Month is...

Maya

Maya is a 5 month old brown Bengal that lives with Julia Hares. Julia got Maya from a breeder in Stevens Point and is planning on breeding her in the future. Maya's favorite places to sleep are either on the couch or on the bed next to Julia. She loves to get either deli ham or soft food as treats and enjoys playing with catnip mice, balls with bells in them and stuffed animals.

Maya loves to play and run around the house. She will run up and down the stairs or hall and will even create an obstacle course for herself by running around things like chairs and the dining room table. She also likes to sit on the couch and watch birds or Julia while she is outside. She will even paw at the window while Julia is outside. Maya is always watching and following Julia around. Maya enjoys playing with Julia as well.

Maya is very independent and has a lot of energy. She loves playing in laundry baskets and boxes and will even tip the boxes over onto herself. Julia will find her under a box a while later. The doctors and staff at Cedar Grove Veterinary Services are looking forward to seeing her and her family for many years to come.
