
The pet of the month is...

Morgan

Morgan is a 4 ½ year old black and white mixed dog who lives with Jeff, Patti and the rest of the Clark family. She enjoys sleeping on the couch especially when her front feet hang over the edge onto the floor. She also likes sleeping on her dog bed. She thinks that anything left on the counter is a treat and especially likes cubes of butter. She also loves sweets so the family has to keep them locked up. She enjoys playing hide and seek with Meg, the other dog in the house, and being petted. She also likes to play tag with Meg and will chase her. Morgan will hide behind trees and other obstacles and wait for Meg to find her. The Clark family also have a cat and turtles. The dogs and the cat do not get along though.

Morgan is a lover not a fighter. She truly enjoys being petted and will get very jealous if anyone is paying attention to Meg. If Morgan sees that she makes sure to squeeze in-between Meg and the person petting her. To tell her family that she has to go out and go potty she jumps up and down on all four feet like a bunny.

The doctors and staff at Cedar Grove Veterinary Clinic enjoy seeing Morgan and the rest for the Clark family. We hope to see them for years to come.
